R2 Library ezProxy Configuration

Document Purpose:

This document defines the basic configuration of the ezProxy proxy server required for remote R2library access.

Intended Audience:

This document in intended for administrators, developers and technical support staff. Technical questions should be referred to customerservice@r2library.com.

ezProxy Configuration:

ezProxy must be properly configured for R2Library access to work via the ezProxy proxy server. Also, ALL the IP addresses of the proxy server must be added to R2Library in the System Preferences section for your specific customer configuration.

Please make sure it is exactly shown below.
Note that 5.2 GA is CASE SENSISTIVE which is a new "feature" and causes numerous support issues after a version 4 upgrade.

```
Title r2library.com
URL https://www.r2library.com
HOST www.r2library.com
DJ r2library.com
```

Further configuration information from ezProxy can be found at the following URLs:
